EDUCATION

B.Sc in Computer Science & Engineering,   *Oct 2024-Current*
Kishoreganj University.

SKILLS

- **Frontend:** Tailwind CSS, Bootstrap, JavaScript, React JS
- **Backend:** Django, DRF
- **Database:** MySQL, SQLite
- **Python:** NumPy, Pandas, OpenCV
- **IOT:** Arduino, Nodemcu, Esp32, Raspberry Pi.

INTERNSHIP/EXPERIENCE

- IT Wing at BSMRU Computer and Programming Club -BCPC   *Nov 2024-Current*

PROJECTS

WiFi-Based Incubator Controller Using ESP32   *Aug 2024*

- Designed and implemented a smart egg incubator system with remote monitoring and control capabilities using WiFi.
- Utilized sensors (e.g., temperature, humidity) for real-time data collection and transmitted inputs to an Arduino/microcontroller for efficient incubation.
- Developed a user-friendly interface for monitoring and adjusting incubation parameters via a smartphone or web application.

Book Review System   *Sept 2024*

- Web-based platform developed to allow users to search, review, and rate books.
- Designed a responsive and modern UI using Tailwind CSS for enhanced user experience.
- Utilized SQLite as backend database for data storage and CRUD operations.

User Authentication System using Django   *Feb 2025*

- Developed a secure user authentication system with Signup, Login, and Logout functionalities.
- Implemented form validation, password hashing, and session management using Django's authentication framework.
- Designed responsive user interface using Tailwind CSS for smooth user interaction.
- Ensured secure access control and personalized user experience.

ACHIEVEMENTS

- Received First Prize at a Science Fair for developing an innovative WIFI Based Egg Incubator, showcasing advanced automation, environmental monitoring, and user friendly remote control system.

INTERESTS

Machine Learning & Artificial Intelligence | Working in real life projects | Learning new tools
